

TECHNOLOGY COMPETENCE

Simply. Greater. Range.

REIFF-PLUS

Our service package exceeds the term of “trade” by far: REIFF-Plus means **industry partner** along the **entire value chain**.

Simply practical:
the REIFF online tools and apps

Our online tools and apps will support you in your day-to-day work.

- REIFF adhesive navigator
- REIFF converter
- Rubber navigator
- Online trimming configurator

Find more about our practical helpers at:
www.konfigurator.reiff-tp.de

Ordering made easy:
www.shop.reiff-tp.de

Your advantages

- More than 70,000 products available online
- Customer-specific prices
- Dedicated customer cockpit
- Calculation programs
- CAD data
- Offers & promotions
- Technical data sheets
- Live support by experts
- Availability indicator

We will find the right solution for you –
don't hesitate to contact us!

Perfection for custom solutions

Custom solutions are our strength: About a quarter of our products will leave our company processed or finished.

Our **specialists** will make your wishes come true in our **in-house workshops**, be it in profile technology, hose assembly, linear centre, or freehand production.

We turn **semi-finished products into finished parts** based on custom drawings, as individual parts, or in series production.

Technology competence
Range

REIFF-PLUS

Products plus service

REIFF Technische Produkte is your **competent partner for original equipment and operating material supplies**. More than **140,000 products** give us one of the largest technical product ranges to be found in Germany.

Competent and customised: our advice

Our specialists, application technicians, and engineers will advise you on the selection of suitable products for your area of application – from the initial consultation meeting to final implementation.

Quick and smart: our logistics

We have 70,000 items from our range in stock. They are waiting to be called off by you and can be delivered within 24 hours, also via a Kanban system.

Take your pick: eSolutions

We offer a number of eSolutions to integrate our products and services into your procurement processes in the best fashion. We will work with you to develop models that are a perfect fit for your processes, whether in the form of OCI, EDI or electronic catalogues.

Our brochures and catalogues are available for download free of charge at www.reiff-tp.com.

Contents

Drive technology

- 06** Rolling bearings
- 08** Linear technology
- 10** Assembly, maintenance, and monitoring products
- 14** Mechanical components
- 16** Toothed belts and lock washers
- 18** V-belts, flat belts, conveyor belts, and pulleys
- 20** Chains, couplings, and accessories

Sealing technology

- 22** Static seals
- 24** Rotary seals
- 26** Hydraulic and pneumatic seals Flat
- 28** Gaskets, rubber and seal plates

Vibration damping

- 30** Vibration damping elements

Adhesive technology

- 32** Adhesives, sealants, and lubricants

Profile technology

- 34** Rubber and plastic profiles
- 36** Rubber, TPE moulded parts, and vulcanised profile frames

Hose technology

- 38** Industrial hoses
- 40** Hydraulic hoses
- 42** Fittings and pipes

Plastic technology

- 44** Semi-finished plastic products and finished parts
- 46** Moulded plastic parts

OUR PROCESSING SERVICE

Machining

- Thread cutting
- Milling
- Turning
- Drilling

Separating

- Sawing
- Splitting
- Cutting

Punching

- Water jet cutting

Surface treatment

- Refining
- Labelling
- Coating

Customisation

- Mounting
- Welding
- Completing
- Bonding
- Freehand production

Vulcanising

Model making

- Prototyping
- Tool production

Reshaping

- Beveling
- Bending

Casting

- Mould casting
- Injection moulding

Rolling bearings

REIFF-PLUS

- Production of special bearings based on a drawing
- Import stock available as low-cost alternative products

Spherical bearings

Deep-groove, self-aligning, and angular contact ball bearings

Needle roller bearing

Flange and pedestal bearings

Glycodur bushes

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

- Slewing rings
- Thin section bearings
- Housing units
- Spherical bearings/heads
- Plain bearings/sintered bronze plain bearings
- Sliding bushes
- Sliding discs
- Sliding strips
- Tapered roller bearings
- Cross roller bearings
- Cam rollers/support rollers/rollers
- Bearings for screw drives
- Miniature bearings
- Needle roller bearings
- Axial needle roller bearings
- Needle bushes
- Needle roller sleeves
- Needle cages
- Self-aligning ball bearings
- Axial self-aligning ball bearings
- Spherical roller bearings
- Deep groove ball bearings
- Axial deep groove ball bearings
- Double row deep groove ball bearing
- Angular contact ball bearing
- Axial angular contact ball bearing
- Double-row angular contact ball bearing
- Special bearings
- Tensioning/extraction sleeves
- Tensioning bearing units/bearings
- Spindle bearings
- Toroidal roller bearings
- Four-point contact bearings
- Shaft nuts
- Cylindrical roller bearings

Linear technology

REIFF-PLUS

- Diverse machining options in the linear centre:**
- Cutting to length, drilling, grooving
 - Internal and external threads on the front face
 - Machining according to your drawing
 - Optical measurements using 3D measuring machines

Linear ball bearings

Linear ball bearing units

Precision guideways

Shaft guideway with support

Linear guideway

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

- Complementary products
- Lifting cylinders
- Ball screw drives
- Linear axes
- Linear ball bearings
- Linear modules
- Linear tables without drive
- Positioning tables and systems
- Precision rail guides
- (Miniature) linear guideways
- Roller screws
- Steel shafts

Assembly, maintenance and monitoring products

REIFF-PLUS

- Large range
- We can present our devices to you on site if desired

Internal extraction tool

Installation tool set

Quick Collect Sensor (SKF)

Lubricant applicator

Induction heaters

This brand represents quality:

OUR PRODUCT RANGE

- Heating devices
- Levelling discs
- Shaft alignment systems
- Hydraulic tools for installation/removal
- Manual and automatic lubricators
- Mechanical extractors
- Mechanical tools
- Measuring instruments for:
 - Speed
 - Spark erosion
 - Sound
 - Vibrations
 - Temperature
- Lubrication accessories
- Rolling bearing grease

Assembly, maintenance and monitoring products

REIFF-PLUS

• Quality inspection –
a matter of course for us

Frequency measuring device BRECO® TSM alpha 2

Frequency measuring device optibelt TT

Heater 10 device

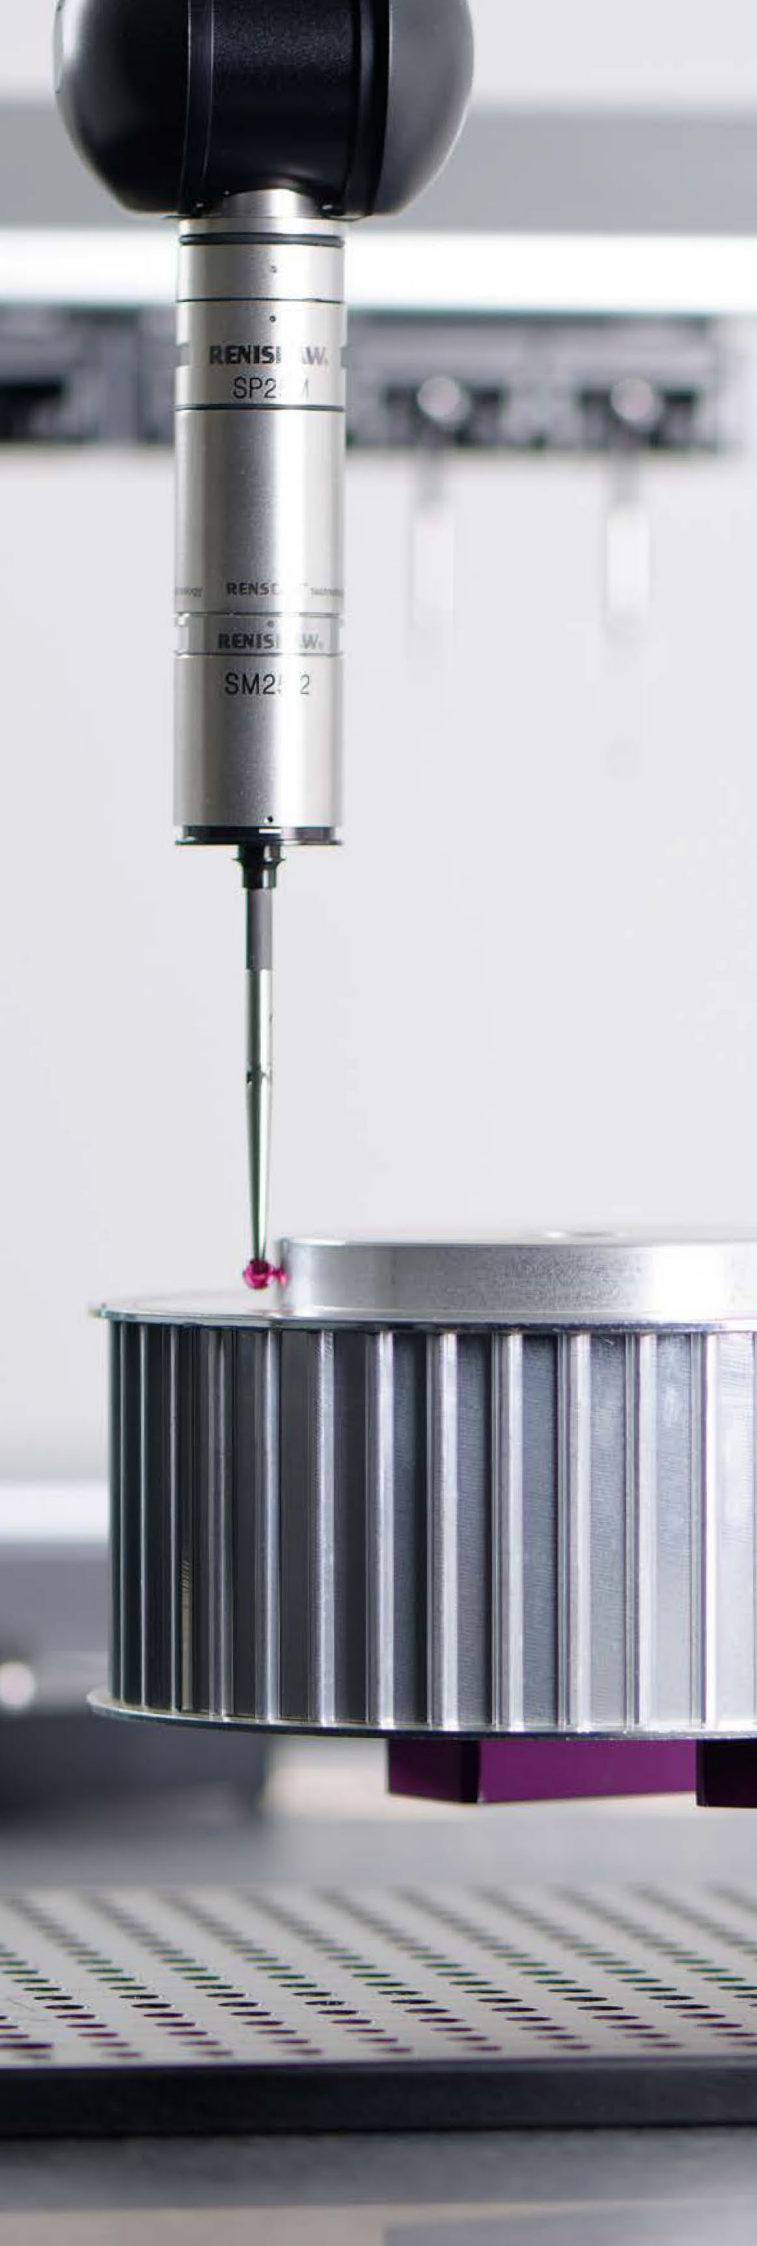

SMARTCHECK

Belt measuring bar

These brands represent quality:

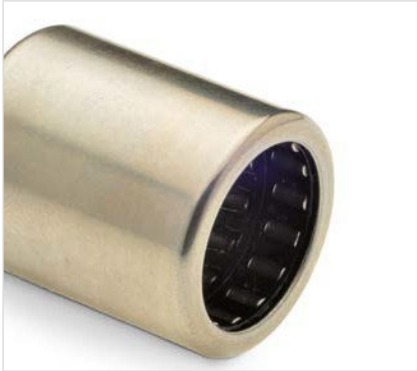

OUR PRODUCT RANGE

- Extractors
- Heating devices
- Measuring devices
- Monitoring systems
- Preload measuring devices

Mechanical components

Freewheels

Sleeve freewheel

REIFF-PLUS

In stock
· Balls, needles and freewheels in a variety of dimensions and designs

Ball caster

Rolling elements

Shaft nuts

These brands represent quality:

OUR PRODUCT RANGE

- Freewheels/sleeve freewheels
- Sprag clutches
- Cam clutches
- Backstops
- Clamping sleeves
- Shaft nuts
- Ball casters
- Balls
- Stainless steel
- Glass
- Ceramics
- Plastic
- Brass
- Rolling bearing steel
- Needle rollers
- Rolling elements
- Cylindrical rollers

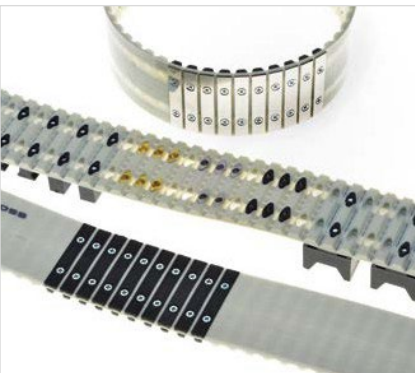

Positive drives

Toothed belts and lock washers

REIFF-PLUS

- Largest range in the industry
- Innovation leader in drive technology
- Comprehensive processing service

BRECO®ATN system

CONTI® Synchrochain Carbon

BRECOFLEXmove®

BRECOprotect®

Standard and special lock washers

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

- Machined toothed belts
- Coated toothed belts
- BRECO®-fix tensioners
- BRECO® toothed belts
 - Endless welded
 - Yard goods
- BRECOflex® toothed
- CONTI® Synchroflex toothed belts
- CONTI® Synchrochain toothed belts
- HTD/STD/CTD toothed belts
- HTD/STD/CTD lock washers
- Clamping connectors
- Ball wheels
- Food-grade toothed belt tensioners
- Clamping plates
- Clamping sets
- Standard and special toothed belts
- Spur gears
- Synchronising pulleys
- Synchronising shafts
- Conveyor toothed belts
- Toothed flat belts
- Inch toothed belts
- Inch lock washers
- Accessories

Non-positive drives

V-belts, flat belts, conveyor belts and pulleys

Optibelt Red Power 3
(high-performance V-belts)

V-belt pulleys as standard
and custom-made products

REIFF-PLUS

- High availability of standard items
- Special designs on request
- Cost-optimised drive design

Transport belt

V-ribbed belts

CONTI® V FO Pioneer
(high-performance V-belts)

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

Flat-belts

- Rubber fabric flat belts
- High-performance flat belts
- Leather flat belts
- NCS flat belts

V-belts

- Wide V-belts
- Double V-belts
- Finite V-belts and connectors
- High-performance narrow V-belts
- V-ribbed belts
- Classic V-belts
- Lamella/link V-belts
- Composite V-belts
- Wide-angle belt

V-belt pulleys with taper tensioner bush

Round belts

- Plastic round belts
- Leather round belts

Chains, clutches and accessories

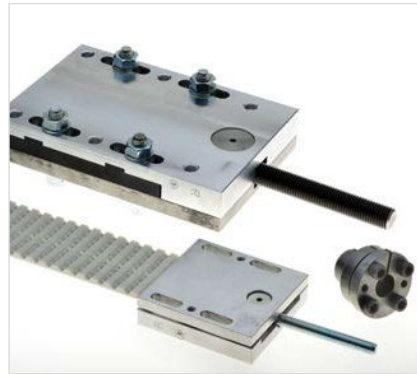

REIFF-PLUS

- Customised solutions
- Everything from a single source
- One of the most comprehensive accessory ranges in drive technology

Chains and sprockets

Clamping plates and clamping sets

Tension rollers

Axial plug-in clutches

Chain length monitoring system

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

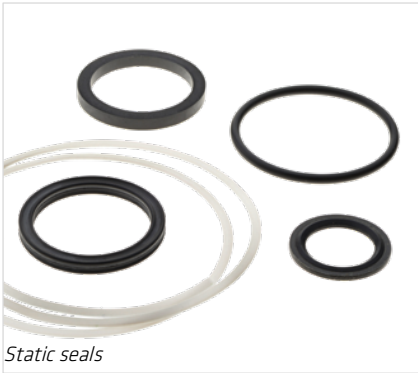

- Friction and weaving beam coverings
- Chains
 - Flyer chains
 - High-performance roller chains
 - Hollow pin chains
 - Corrosion-protected and maintenance-free chains
 - Long link roller chains
 - Roller chains (with attachments)
 - Accumulating conveyor chains
- Couplings
 - Curved tooth clutches
 - Flexible shaft couplings
 - Coupling packages
- Conveyor belts
- Accessories
 - Sales aids/accessories range
 - Frequency and preload measuring devices

Static seals

REIFF-PLUS

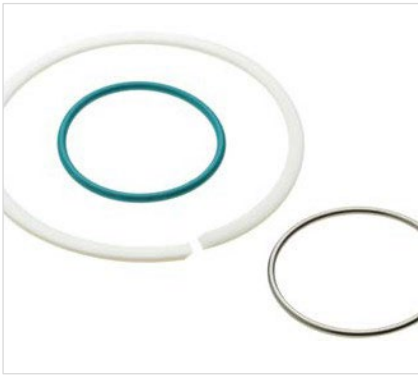

- Design tools
- Express delivery
- Large selection of materials
- Smart IT connection

Static seals

U-rings

Support rings

Screw seals and Kantseal

O-ring boxes

This brand represents quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

- O-rings
 - Standard
 - FEP-coated
 - FFKM
 - Surface treated
 - Range boxes
- Rectangular sealing rings/Kantseal
- Screw seals/U-Seal support rings
- X-rings/Quad-Rings®
 - Standard
 - Surface treated

Rotary seals

REIFF-PLUS

- Wide range of products in brand quality
- Customised special designs up to XXL diameters
- Consistently economical

Rotary seals

Shaft seals and V-rings

Mechanical seals

Shaft sleeve

Drive seals

This brand represents quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

- Axial shaft seals
 - V-rings
 - Gamma rings
 - Axial shaft seals
- Mechanical seals
- Drive seals PTFE shaft seals
 - Varilip®
 - Roto Variseal®
- Radial shaft seals
 - Standard
 - Oversized XXL
 - Special designs
 - Cassette seals
- Sealing caps/housing seals

Hydraulic and pneumatic seals

REIFF-PLUS

- Many years of experience in sealing technology
- A strong partner of Trelleborg Sealing Solutions
- Express production

Scrapers

Stepseal® seals

Slotted rings

Guide belts

Stuffing box packings

This brand represents quality:

OUR PRODUCT RANGE

- Scrapers
 - PTFE Excluders
 - Zurcon® scrapers
 - NBR/FKM scrapers
- Seals for rotary and swivelling movements
 - Roto Glyd Ring®
 - Roto Variseal®
- Guide elements
 - Guide rings
 - Guide belt
 - Guideways/Slydway®
- Piston/rod seals
 - AQ-Seal®
 - Glyd Ring®
 - Fabric seals
 - Slotted rings
 - Rimseal®
 - Stepseal®
 - Variseal®
 - Wynseal®
- Pneumatic seals
- Stuffing box packings

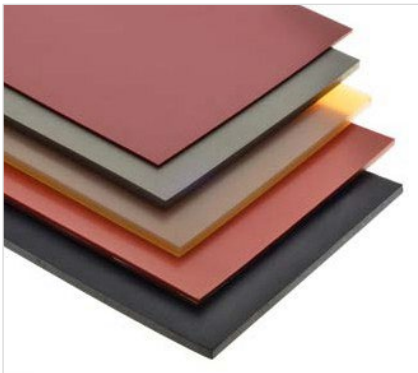

Flat gaskets, rubber and seal plates

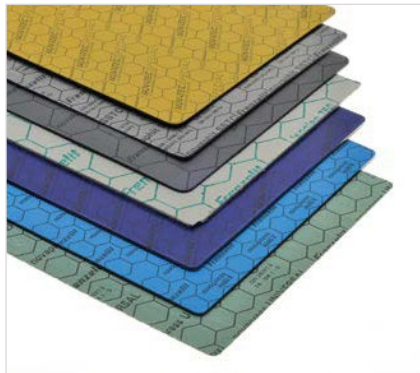

REIFF-PLUS

- State-of-the-art technology
- Many years of experience
- Optimum solutions
- Machining centre

Rubber plates

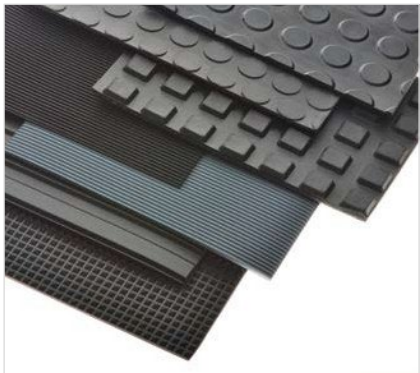

Seal plates

Flat gaskets, punched and water jet parts

Moss, cellular rubber, and cellular PE plates

Coverings

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

Semi-finished sealing products

- Expanded PTFE
- Filter mats
- Felts
- Flange gaskets
- Gore-Tex® seals
- Profiled rubber mats
- Rubber plates
- Rubber honeycomb mats
- Isoplan heat protection panels
- High-pressure seal plates
- IsoGlas cords/strips
- IsoKERAM cords/strips
- Sponge rubber plates
- Silicone
- Cellular rubber bands
- Cellular rubber plates
- Cellular PE plates

Flat gaskets and blanks

- Based on customer drawings and specifications, from the materials specified above

Rubber moulded parts

Vibration damping elements

REIFF-PLUS

- Comprehensive range for all areas of vibration damping
- More than 600 items in stock

Rubber-metal buffers

Articulated feet

Machine feet and setup elements

Rails and friction wheels

Customised parts

These brands represent quality:

EFFBE

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

- Rubber-metal parts
- Based on customer drawings and specifications

- Standard elements
 - Bump stop
 - Elastomer springs
 - Hollow rubber springs
 - Rubber-metal bushes
 - Rubber-metal elements
 - Rubber-metal buffers
 - Rubber-metal buffer stop
 - Rubber-metal bumpers
 - Rubber-metal rails
 - Crane buffers
 - Air springs
 - Machine setup
 - Machine feet
 - Friction wheels
 - Friction rings
 - Oscillating metal elements
 - Vibration and structure-borne sound insulation

Adhesives, sealants and lubricants

REIFF-PLUS

- www.reiff-tp.com/klebenavi
- Find the best adhesive for your purpose with our adhesive navigator
 - Order the desired adhesive immediately from the online shop
 - More than 1,000 adhesives in stock
 - Customised and manufacturer-independent advice

Silicone adhesives and sealants

Sealing masses and sealants

Lubricants

Instant adhesives and epoxy resin adhesives

Elastic adhesives

These brands represent quality:

OUR PRODUCT RANGE

- Acrylic adhesives
- Dispensing equipment
- Dispensing technology
- Epoxy resin adhesives
- Surface sealants
- Liquid metals
- Thread sealants
- Adhesive tapes
- Contact adhesives
- Corrosion protection
- MS Polymers
- Surface preparation
- Polyurethanes
- Lubricants
- Threadlockers
- Silicone moulding compounds
- Silicone adhesives and sealants
- Silicone oils
- Instant adhesives
- Spray adhesives
- Grouting compounds
- Maintenance products
- Shaft-hub connections

Rubber and plastic profiles

REIFF-PLUS

Everything from a single source

- Production based on drawings
- Profile vulcanisation
- Customisation
- Coating

Special profiles for automotive, bodywork, and vehicle construction

Edge protection, silicone foam, and foam rubber profiles

Metal clip and edge protection profiles

Special profiles for the construction industry

Customised profiles

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

Custom-developed and manufactured sealing and functional profiles for:

- Aluminium profile technology
- Automotive, engine compartment, or interior
- Electrical engineering
- Renewable energies
- Windows, façade, front door, and conservatory
- Industrial kitchens
- Interior fittings/system rooms
- Car body and vehicle construction, cabin construction
- Machine, plant, and apparatus engineering
- Medicine
- Process technology
- Ventilation technology
- Door and gate

Bearing profiles:

- Support profiles
- Sealing profiles
- Filler profiles and accessories
- Edge protection
- U-profiles
- Clamping profiles
- Metal clip and edge protection profiles
- Foam rubber profiles
- Impact protection profiles
- Round cords
- Hose profiles
- Silicone foam profiles
- Glazing profiles

Made of elastomers:

EPDM, NBR, CR, SBR, NR, MQ, FPM, MFQ

Made of thermoplastic:

PVC-U (hard), PVC-P (soft), PP, ABS, TPE, TPO (EPDM + PP), TPS-SEBS, TPV, TPU, PA

Other materials available upon request.

Rubber, TPE moulded parts, and vulcanised profile frames

Moulded parts

2-component parts

REIFF-PLUS

- Suitable solution for
- EPDM, NBR, CR, TPE, or other materials
 - 2-component parts
 - Large series or one-off production

Vulcanised profile frames

Moulded corners for window construction

Bellows and grommets

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

- 2-component parts (rubber-metal or rubber-plastic)
- CR moulded parts
- Dampers
- Bellows
- Film-vulcanised profile frame
- Moulded corners
- Moulded rubber parts
- Cable glands
- LSR parts
- Sleeves
- Diaphragms
- NBR moulded parts
- Silicone moulded parts
- Plugs
- TPE moulded parts
- Grommets
- Vulcanised profile ends
- Vulcanised profile frames

Industrial hoses

REIFF-PLUS

· Manufacture of customised hoses according to drawing on request

Certified specialist company for hose and valve technology (VTH)

Silo/fire brigade suction hose

Mortar hose with compressed air and control line

Food hoses

Moulded hoses

Chemical hoses

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

- Exhaust hoses
- Suction/blower hoses
- Petrol hoses
- Chemicals hoses
- Steam hoses
- Compressed-air hoses
- Flat hoses
- Film-wound hoses
- Conveying hoses
- Conveying hose systems
- Moulded hoses
- Gas hoses
- Beverage hoses
- Air-conditioning hoses
- Expansion joints
- Fuel hoses
- Radiator hoses
- Food hoses
- Air hoses
- Metal hoses
- Mortar hoses
- Oil hoses
- Pneumatic hoses
- Compressed air hoses
- Sandblasting hoses
- Suction/pressure hoses
- Hoses without liners
- Silo hoses
- Spiral hoses
- Multi-purpose hoses
- Water hoses
- Corrugated hoses

Hydraulic hoses

REIFF-PLUS

Hydraulic hose service centre

- Test results documented by test certificate
- Express and pick-up service

Oil return/suction hose

PTFE hose assembly

Hose line with heat protection

Hose line with kink protection

Pull-out protection for high-pressure hoses Cablelock AS

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

- Pull-out safety devices for high-pressure hoses Cablelock AS
- Paint spray hoses
- High-pressure hoses
- Ultra-high-pressure hoses
- Sewer flushing hoses
- Compact hydraulic hoses
- Plastic hydraulic hoses
- Measuring hoses
- Multi-spiral hoses
- Low-pressure hoses
- PTFE hoses with stainless steel wire braiding
- Suction hoses
- Hose protection
- Steel braided hoses
- Textile braided hoses
- Thermoplastic hoses
- Washing machine hoses

Fittings and pipes

REIFF-PLUS

- Customised fittings and pipes according to drawing
- Large variety of products and materials
- Combination of hose, fitting, link and connection parts to form a functional complete line

Hose clamps

Curved pipework

Shut-off valves

Hydraulic valves/pipe fittings

Industrial valves

These brands represent quality:

OUR PROCESSING SERVICE

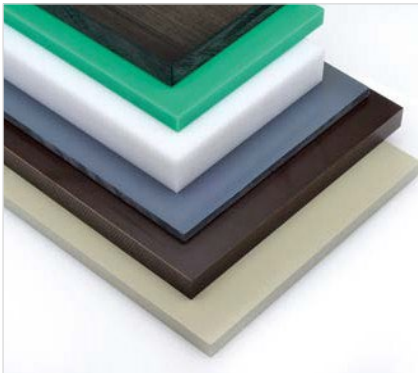

OUR PRODUCT RANGE

- Shut-off valves
- Compressed air valves
- Grease guns
- Fire extinguishing valves
- Bent pipes
- Lever arm couplings
- Industrial valves
- Ball valves
- Measuring devices
- Press fittings
- Compressed air valves
- Pipes
- Pipe clamps
- Pipe fittings
- SAE flanges
- Shell fittings
- Hose reels
- Hose presses and accessories
- Hose clamps
- Hose carriers
- Hose fittings
- Hose trolleys
- Grease nipples
- Cutting ring fittings
- Quick-release couplings
- Plastic protective elements for tanker couplings
- EPSILON™ dry clutches
- Water fittings

Semi-finished products and finished parts of plastic

REIFF-PLUS
· Your plastic partner for development and design

Semi-finished blanks

Milled parts

Round and hollow rods

Turned parts

Transparent milled parts

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

Customised based on drawings and requirements:

- Machining:
- Turning, milling, drilling, thread cutting

Semi-finished products made from plates, solid rods, hollow rods made from standard, engineering and high-performance plastics, thermosets, and PUR materials

We offer a customised processing service.

Our technicians and engineers will work with you to develop **solutions**. They will gladly assist you in selection of materials and in the manufacturing process.

Plastic moulded parts

REIFF-PLUS

• Comprehensive technical expertise in moulded part design, material selection, thermoforming

Injection moulded

Deep-drawing part

Hot forming

PUR moulding

Punched part

These brands represent quality:

OUR PROCESSING SERVICE

OUR PRODUCT RANGE

Punched and water-jet cut finished parts of plate goods
PUR cast and moulded parts
Technical moulded parts, injection-moulded from any thermoplastic
Deep-drawing parts made from thermoplastic plates

Separating:

- Sawing, laser-cutting, water jet cutting, plotting Reshaping:
- Bending, folding, deep drawing

Surface treatment:

- Polishing, coating

Customisation:

- Bonding, mounting

Casting:

- Injection moulding 1-component and 2-component, PUR casting
